**The Critical Surf Studies Reader** Jan 06 2022 The

evolution of surfing—from the first forms of wave-riding in Oceania, Africa, and the Americas to the inauguration of surfing as a competitive sport at the 2020 Tokyo Olympics—traverses the age of empire, the rise of globalization, and the onset of the digital age, taking on new meanings at each juncture. As corporations have sought to promote surfing as a lifestyle and leisure enterprise, the sport has also narrated its own epic myths that place North America at the center of surf culture and relegate Hawai'i and other indigenous surfing cultures to the margins. The *Critical Surf Studies Reader* brings together eighteen interdisciplinary essays that explore surfing's history and development as a practice embedded in complex and sometimes oppositional social, political, economic, and cultural relations. Refocusing the history and culture of surfing, this volume pays particular attention to reclaiming the roles that women, indigenous peoples, and people of color have played in surfing. Contributors: Douglas Booth, Peter Brosius, Robin Canniford, Krista Comer, Kevin Dawson, Clifton Evers, Chris Gibson, Dina Gilio-Whitaker, Dexter Zavalza Hough-Snee, Scott Laderman, Kristin Lawler, lisahunter, Colleen McGloin, Patrick Moser, Tara Ruttenberg, Cori Schumacher, Alexander Sotelo Eastman, Glen Thompson, Isaiah Helekunihi Walker, Andrew Warren, Belinda Wheaton

Hollywood Surf and Beach Movies Feb 24 2021 Surfers loathed them, teenagers flocked to them, critics dismissed them, and producers banked on them. They were surf and beach movies—which were Hollywood's interpretation of the

surf culture. For a short period in the 1960s these films were extremely popular with younger audiences-mainly because of the combination of sand and surf, the musical performers, the shirtless surfer boys and bikini-clad beach girls, and the wild surfing footage. This lavishly illustrated work features profiles on 32 sizzling fun-in-the-sun teenage epics from Gidget to the Beach Party movies with Frankie and Annette to The Sweet Ride plus a few offshoots in the snow. It offers an introduction with an overview of the surf movie genre; film entries with credits, plot synopses, DVD availability, memorable lines, reviews and awards; and biographies of actors and leading actresses who made their marks in the genre. The work also includes behind-the-scenes commentary from such actors as Aron Kincaid of The Girls on the Beach, Susan Hart of The Ghost in the Invisible Bikini, Peter Brown of Ride the Wild Surf, Chris Noel of Beach Ball, and Ed Garner of Beach Blanket Bingo. **Sustainable Surfing** Feb 07 2022 Whilst being an ambiguous and contested concept, sustainability has become one of the twenty-first century's most pervasive ideas, as humanity's increasing impact on the environment,

as well as increasing social and economic inequalities, have local and global consequences. Surfing is a globally recognised cultural phenomenon whose unique connection with nature and rapid expansion into a multibillion pound industry offers exciting synergies for exploring various dimensions of sustainability. This book is the first to bring together the world's foremost experts on the themes of sustainability and surfing. Drawing upon cutting edge theory and research, this book offers multidisciplinary perspectives and methodological approaches on the social, environmental and economic components of sustainable surfing. Contributions provide unique discussions that bridge the gap between theory and practice, exploring topics such as sustainable surf tourism, surf-econometrics, surf activism, surfing governance, the surfing industry, and technological advancements. Each chapter produces in-depth insights to provide foundational insights of the relationship between sustainability and surfing. This book will appeal to multiple audiences in different disciplines and sectors. Practitioners will benefit from the insights presented in this volume, while both undergraduate and postgraduate students will find this volume an invaluable companion, including those working in geography, environmental studies, sport sciences, and leisure and tourism studies.

**The History of Surfing** Aug 21 2020 This in-depth, photo-packed look at the history and culture of surfers is

“meticulously researched, smartly written . . . required reading” (Outside Magazine). Matt Warshaw knows more about surfing than any other person on the planet. After five years of research and writing, Warshaw, a former professional surfer and editor of Surfing magazine, has crafted an unprecedented, definitive history of the sport and the culture it has spawned. With more than 250 rare photographs, *The History of Surfing* reveals and defines this sport with a voice that is authoritative, funny, and wholly original. The obsessive nature of Warshaw’s endeavor is matched only by the obsessive nature of surfers, who are brought to life in this book in many tales of daring, innovation, athletic achievement, and the offbeat personalities who have made surfing history happen. “The world’s most comprehensive chronicler of the surfing scene.” —Andy Martin, *The Independent*

**Surfing Places, Surfboard Makers** Jan 26 2021 Over the last forty years, surfing has emerged from its Pacific islands origins to become a global industry. Since its beginnings more than a thousand years ago, surfing’s icon has been the surfboard—its essential instrument, the point of physical connection between human and nature, body and wave. To a surfer, a board is more than a piece of equipment; it is a symbol, a physical emblem of cultural, social, and emotional meanings. Based on research in three important surfing locations—Hawai‘i, southern California, and southeastern Australia—this is the first book to trace the surfboard from regional craft tradition to its key role in the billion-dollar surfing business. The surfboard workshops of

Hawai'i, California, and Australia are much more than sites of surfboard manufacturing. They are hives of creativity where legacies of rich cultural heritage and the local environment combine to produce unique, bold board designs customized to suit prevailing waves. The globalization and corporatization of surfing have presented small, independent board makers with many challenges stemming from the wide availability of cheap, mass-produced boards and the influx of new surfers. The authors follow the story of board makers who have survived these challenges and stayed true to their calling by keeping the mythology and creativity of board making alive. In addition, they explore the heritage of the craft, the secrets of custom board production, the role of local geography in shaping board styles, and the survival of hand-crafting skills. From the olo boards of ancient Hawaiian kahuna to the high-tech designs that represent the current state of the industry, *Surfing Places, Surfboard Makers* offers an entrée into the world of surfboard making that will find an eager audience among researchers and students of Pacific culture, history, geography, and economics, as well as surfing enthusiasts.

Over 5,300 total pages .... MARINE RECON

Reconnaissance units are the commander's eyes and ears on the battlefield. They are task organized as a highly trained six man team capable of conducting specific missions behind enemy lines. Employed as part of the

Marine Air- Ground Task Force, reconnaissance teams provide timely information to the supported commander to shape and influence the battlefield. The varying types of missions a Reconnaissance team conduct depends on how deep in the battle space they are operating. Division Reconnaissance units support the close and distant battlespace, while Force Reconnaissance units conduct deep reconnaissance in support of a landing force. Common missions include, but are not limited to: Plan, coordinate, and conduct amphibious-ground reconnaissance and surveillance to observe, identify, and report enemy activity, and collect other information of military significance. Conduct specialized surveying to include: underwater reconnaissance and/or demolitions, beach permeability and topography, routes, bridges, structures, urban/rural areas, helicopter landing zones (LZ), parachute drop zones (DZ), aircraft forward operating sites, and mechanized reconnaissance missions. When properly task organized with other forces, equipment or personnel, assist in specialized engineer, radio, and other special reconnaissance missions. Infiltrate mission areas by necessary means to include: surface, subsurface and airborne operations. Conduct Initial Terminal Guidance (ITG) for helicopters, landing craft, parachutists, air-delivery, and re-supply. Designate and engage selected targets with organic weapons and force fires to support battlespace shaping. This includes designation and terminal guidance of precision-guided munitions. Conduct post-strike reconnaissance to determine and report battle damage

assessment on a specified target or area. Conduct limited scale raids and ambushes.
