Secret Stairs May 20 2020 Containing walks and detailed maps from throughout the city, Secret Stairs highlights the charms and quirks of a unique feature of the Los Angeles landscape, and chronicles the geographical, architectural, and historical aspects of the city's staircases, as well as of the neighborhoods in which the steps are located. From strolling through the classic La Loma neighborhood in Pasadena to walking the Sunset Junction Loop in Silver Lake, to taking the Beachwood Canyon hike through "Hollywoodland" to enjoying the magnificent ocean views from the Castellammare district in Pacific Palisades, Secret Stairs takes you on a tour of the staircases all across the City of Angels. The circular walks, rated for duration and difficulty, deliver tales of historic homes and their fascinating inhabitants, bits of unusual local trivia, and stories of the neighborhoods surrounding the stairs. That's where William Faulkner was living when he wrote the screenplay for *To Have and Have Not*; that house was designed by Neutra; over there is a Schindler; that's where Woody Guthrie lived, where Anais Nin died, and where Thelma Todd was

murdered . . . Despite the fact that one of these staircases starred in an Oscar-winning short film—Laurel and Hardy’s *The Music Box*, from 1932—these civic treasures have been virtually unknown to most of the city’s residents and visitors. Now, *Secret Stairs* puts these hidden stairways back on the map, while introducing urban hikers to exciting new “trails” all around the city of Los Angeles.

Mustang by Design Apr 30 2021 p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 12.0px Arial} Without question, the 1964-

1/2 Mustang is one of the most important and influential cars in automotive history. When Ford launched the Mustang, it created an automotive revolution. Award-winning designer and stylist Gale Halderman was at the epicenter of the action at Ford, and, in fact, his initial design sketch formed the basis of the new Mustang. He reveals his involvement in the project as well as telling the entire story of the design and development of the Mustang. Authors and Mustang enthusiasts James Dinsmore and James Halderman go beyond the front doors at Ford into the design center, testing grounds, and Ford facilities to get the real, unvarnished story. Gale Halderman offers a unique behind-the-scenes perspective and firsthand account of the inception, design, development, and production of the original Mustang. With stinging losses from the Edsel fresh in minds at Ford, the Mustang project was an uphill battle from day one. Lee Iacocca and his assembled team had a herculean task to convince Henry Ford II to take a risk on a new concept of automobile, but with the help of Hal Sperlich's detailed market research, the project received the green light. Henry Ford II made it clear that jobs were on the line, including Iacocca's, if it failed. The process of taking a car from sketch to clay model to prototype to preproduction and finally finished model is retraced in insightful detail. During the process, many fascinating experimental cars, such as the Mustang I two-seater, Mustang II prototype, Mustang Allegro, and Shorty, were built. But eventually the Mustang, based on the existing Ford Falcon, received the nod for final production. In a gala event, it was unveiled at the 1964 World's Fair in New York. The Mustang received public

accolades and critical acclaim, and soon it became a runaway hit. After the initial success, Ford designers and Gale Halderman designed and developed the first fastback Mustangs to compliment the coupes. The classic Mustang muscle cars to follow, including the GT, Mach 1, and others, are profiled as well. The Mustang changed automotive history and ushered in the pony car era as a nimble, powerful, and elegantly styled sports coupe. But it could so easily have stumbled and wound up on the scrap pile of failed new projects. This is the remarkable and dramatic story of how the Mustang came to life, the demanding design and development process, and, ultimately, the triumph of the iconic American car.

High Concept Oct 13 2019 Using the life and career of Don Simpson as a point of departure, High Concept takes readers on a riveting journey inside the Hollywood of the 1980s and 90s. For over two decades Simpson was Hollywood's

reigning bad boy, yet through the same period he and his partner, Jerry Bruckheimer were the most successful independent producers in the Hollywood history. The revelations in High Concept are astounding! Through intensive research Fleming has created a dramatic tale of the rise of the key players and how the Don Simpson way became the Hollywood way. Through an interwoven narrative of the decadence and greed, hypocrisy and hysteria, profligacy and moral emptiness of the key power brokers, Fleming returns to the core concept of excess and how it continues to drive Hollywood.
