The Brave Learner May 18 2020 Publishers Weekly bestseller · A joyful and accessible homeschool guide to making learning a part of everyday life Parents who are deeply invested in their children's education can be hard on themselves and their kids. When exhausted parents are living the day-to-day grind, it can seem impossible to muster enough energy to make learning fun or interesting. How do parents nurture a love of learning amid childhood chaos, parental self-doubt, the flu, and state academic standards? In this book, Julie Bogart distills decades of experience--homeschooling her five now grown children, developing curricula, and training homeschooling families around the world--to show parents how to make education an exciting, even enchanting, experience for their kids, whether they're in elementary or high school.

Enchantment is about ease, not striving. Bogart shows parents how to make room for surprise, mystery, risk, and adventure in their family's routine, so they can create an environment that naturally moves learning forward. If a child wants to pick up a new hobby or explore a subject area that the parent knows little about, it's easy to simply say "no" to end the discussion and the parental discomfort, while dousing their child's curious spark. Bogart gently invites parents to model brave learning for their kids so they, too, can approach life with curiosity, joy, and the courage to take learning risks.

The Quran Journal: 365 Verses to Learn, Reflect Upon, and Apply Aug 21 2020 The Quran is the foundation of our faith and the source of our guidance as Muslims, but many of us struggle to create or maintain a relationship with the words of Allah in our daily lives. Quran journaling is a great way to cultivate that relationship - it gives you flexibility to connect with the Quran on your terms and the ability to see how verses apply specifically to you and your individual circumstances. This journal will be your guide on that journey to connect with the Quran in a meaningful way. With

relevant monthly themes and selected verses for each day, this journal will help you to get started creating that relationship, without the overwhelm of not knowing where or how to start. Make the intention that the 365 daily verses in this book will be your starting point on your lifelong journey to connect with Allah's words in ever deeper and more meaningful ways. That they will be your reminders when you feel like you have wandered off the path. That they will be your foundation and your grounding in a world that seems ever more hectic. Bismillah. - Theme and Verse Number: At the top of each page, you will find the theme for the month and the number of the verse in the Quran which you can use to look up the verse. - Arabic: Regardless of the level you are, practice Arabic writing by copying down the verse. - Translation: Write down the translation you best understand and connect with. - Tafsir: Read through and write the background, context, and explanation of each verse. The most well known authentic resource for tafsir is Tafsir Ibn Kathir. Th is can be purchased online or in many Islamic bookstores. Tafsir Ibn Kathir can also be found for free online in various places. - Application: Reflect on and apply the verse of the day to your life. How does this verse connect to you and your experiences? How does it relate to the overall theme? Are there any other verses, hadith, or quotes that this brings to mind? How does it make you feel? How can you act on it? These are some questions to get you started,

but of course you can write whatever feels right. - Dua: Write a short dua to help you put your learnings about the verse into action. Ameen. May Allah accept all your efforts in better connecting with the Quran.

Educating the Muslims of America Jul 12 2022 As the U.S. Muslim population continues to grow, Islamic schools are springing up across the American landscape. Especially since the events of 9/11, many have become concerned about what kind of teaching is going on behind the walls of these schools, and whether it might serve to foster the seditious purposes of Islamist extremism. The essays collected in this volume look behind those walls and discover both efforts to provide excellent instruction following national educational standards and attempts to inculcate Islamic values and protect students from what are seen as the dangers of secularism and the compromising values of American culture. Also considered here are other dimensions of American Islamic education, including: new forms of institutions for youth and college-age

Muslims; home-schooling; the impact of educational media on young children; and the kind of training being offered by Muslim chaplains in universities, hospitals, prisons, and other such settings. Finally the authors look at the ways in which Muslims are rising to the task of educating the American public about Islam in the face of increasing hostility and prejudice. This timely volume is the first dedicated entirely to the neglected topic of Islamic education.

When Children Love to Learn Sep 21 2020 They're hallmarks of childhood. The endless "why" questions. The desire to touch and taste everything. The curiosity and the observations. It can't be denied-children have an inherent desire to know. Teachers and parents can either encourage this natural inquisitiveness or squelch it. There is joy in the classroom when children learn-not to take a test, not to get a grade, not to compete with each other, and not to please their parents or their teachers-but because they want to know about the world around them! Both Christian educators and parents will find proven help in creating a positive learning atmosphere through methods pioneered by Charlotte Mason that show how to develop a child's natural love of learning. The professional educators, administrators, and Mason supporters contributing to this volume give useful applications that work in a variety of educational settings, from Christian schools to homeschools. A practical follow-up to Crossway's *For the Children's Sake*, this book follows a tradition of giving serious thought to what education is, so that children will be learning for life and for

everlasting life.

Going to Mecca Nov 23 2020 "Come with the pilgrims as they set out on a journey, a journey of patience to the city of Mecca." We are led on the journey of a lifetime to the city of Mecca - the pilgrimage known to Muslims as the Hajj. The pilgrims walk with heads bare and feet in sandals; they call to Allah; they kiss or point to the Black Stone, as the Prophet did. Arriving at Mecca, they surge round the Ka'aba, shave their heads

and travel to Mount Arafat. Finally, though their bodies are tired and aching, their spirits are uplifted, knowing that with thousands of others they have performed the sacred pilgrimage. This is a window on to a sacred journey for Muslims the world over - beautifully described and illustrated for younger children.
