**Architecture in the Digital Age** Nov 19 2019 Architecture in the Digital Age addresses contemporary architectural practice in which digital technologies are radically changing how buildings are conceived, designed and produced. It discusses the digitally-driven changes, their origins, and their effects by grounding them in actual practices already taking place, while simultaneously speculating about their wider implications for the future. The book offers a diverse set of ideas as to what is relevant today

and what will be relevant tomorrow for emerging architectural practices of the digital age.

*Graced to be a Rebel* May 06 2021 In *Graced to be a Rebel*, Kimi provokes the reader to think and see the world in a different perspective. The perspective of common sense. Against all odds, she learned to walk alone on a narrow path of morals and high standards. The task was hard. But with the understanding that perfection without love still equals no compassion. This book talks about compassionate being key but compromise without common sense will still breed low standards and morals. Imagine a world of compromise, where there's no right or wrong way to do anything concerning morals. Imagine a world seemingly with no common sense. Imagine a world of gross darkness and not a single flicker of light. Imagine a world filled with everyone doing their own thing without regard to others. Imagine a world filled with nothing but selfishness. Imagine a world filled with hate and jealousy. Imagine a world that makes you feel so lonely and isolated. Kimi has lived in it (the world) but with a thankful heart she believes she's 'Graced to be a Rebel' by the Father.

**Imagine a Place** Oct 23 2022 Imagine a place where passion for learning, authentic connection with colleagues and community, and strengths-based middle grades education thrive. Imagine places of learning and inspiration for teachers, administrators, teacher educators, and teacher candidates. *Imagine a Place: Stories From Middle Grades Educators*, a new anthology of teacher-written narratives, focuses on educators' stories that have the power to offer hope, ignite creativity, and provide practical ideas for middle grades teachers. *Imagine a Place* is filled with stories of joy, stories of relationships, and stories of finding the treasure in challenging situations that provide powerful insight into the world of

teaching young adolescent learners. Along with teacher narratives, the editors of this book provide questions and exercises for thoughtful reflections on the themes and issues raised in each story as well as guidance for the reader to write his or her own account of their middle grades teaching experiences. We invite you to join these teachers in their classrooms as they reflect on their experiences with young adolescents in the place we call school.

[Fine Arts Standards of Learning for Virginia Public Schools](#) Aug 29 2020 The Fine Arts Standards of Learning in this publication represent a major development in public education in Virginia, emphasizing the importance of instruction in the fine arts (dance arts, music, theatre arts, and visual arts) as an important part of Virginia's efforts to provide challenging educational programs in the public schools. Knowledge and skills that students acquire through fine arts instruction include the abilities to think critically, solve problems creatively, make informed judgments, work cooperatively within groups, appreciate different cultures, imagine, and create. The Fine Arts Standards of Learning were developed through the efforts of classroom teachers, curriculum specialists, administrators, college faculty, professional artists, fine arts organization representatives, and museum personnel. These persons assisted the Department of Education in developing and reviewing the draft documents. Opportunities for citizens to make comments with respect to the standards documents were provided through public hearings that were held at two sites across the state. Copies of the Fine Arts Standards of Learning were distributed to public schools throughout Virginia for teachers to use in developing curricula and lesson plans to support the standards. The standards are minimum requirements in the fine arts, setting reasonable targets and expectations for what teachers need to teach and students need to learn. The standards set clear, concise, measurable, and rigorous expectations for young people. Schools are encouraged to go beyond the prescribed standards to enrich the curriculum to meet the needs of all students.

**Send in the Clones** Jan 14 2022 "High Impact" offers high-interest books for the full secondary age range to motivate reluctant readers.

Grouped into four language levels (reading ages A 6-7, B 7-8, C 8-9 and D 9-10), they gradually develop students' literacy skills and confidence.

**Managing Innovation and Standards** Nov 24 2022 This book provides an in-depth study of the management of standards and regulation in sustainable and radical innovation development. It considers the case of micro Combined Heat and Power (mCHP) technology. The developers of this radical innovation in the European heating sector encountered major conflicts when attempting to create or adapt standards when bringing the technology to market. Utilising rich research data and interviews with key actors, the author uses this case to derive a grounded theory on the management of standards and regulation during an innovation process. The results also have important implications for innovators, which are reflected in clear advice for practice.

*Creating Music* Jun 26 2020 Children create music in individually unique ways, but also using common processes. Each creating process component stated in the United States' National Music Standards (imagine, plan and make, evaluate and refine, and present; NCCAS, 2014) is explored in this text using children's creations from China, India, Ireland, Mexico, and the United States as examples.

[Never Work Harder Than Your Students & Other Principles of Great Teaching](#) Oct 31 2020 Is great teaching a gift that only a few of us are born with, or is it a skill that can be learned? In *Never Work Harder Than Your Students*, Robyn Jackson makes a radical assertion: Any teacher can become a master teacher by developing a master teacher mindset. The master teacher mindset can be achieved by rigorously applying seven principles to your teaching until they become your automatic response to students in the classroom. The more you practice these principles, the more you begin to think like a master teacher. The seven principles are 1. Start where your students are. 2. Know where your students are going. 3. Expect to get your students to their goal. 4. Support your students along the way. 5. Use feedback to help you and your students get better. 6. Focus on quality rather than quantity. 7. Never work harder than your students. Using these seven principles, Jackson shows you how to become a master

teacher no matter where you are in your practices. Each chapter provides a detailed explanation of one of the mastery principles, the steps you need to take to apply them to your own practice, and suggestions for how you can begin practicing the principle in your classroom right away. Jackson offers stories from her own teaching practice as well as from other teachers she has helped to show you how each principle works. Teaching is a hard job, but using Jackson's principles will help you and your students reap the rich rewards of that hard work. Book jacket.

**Unaccountable** Feb 03 2021 A co-developer of the medical care list outlined in Atul Gawande's best-selling *The Checklist Manifesto* presents an urgent call for action that advocates more transparent, democratic and safer healthcare practices to keep patients better informed and hold poor-performing doctors and flawed systems accountable.

**Handbook of Standards and Guidelines in Human Factors and Ergonomics, Second Edition** Apr 17 2022 With an updated edition including new material in additional chapters, this one-of-a-kind handbook covers not only current standardization efforts, but also anthropometry and optimal working postures, ergonomic human computer interactions, legal protection, occupational health and safety, and military human factor principles. While delineating the crucial role that standards and guidelines play in facilitating the design of advantageous working conditions to enhance individual performance, the handbook suggests ways to expand opportunities for global economic and ergonomic development. This book features: Guidance on the design of work systems including tasks, equipment, and workspaces as well as the work environment in relation to human capacities and limitations Emphasis on important human factors and ergonomic standards that can be utilized to improve product and process to ensure efficiency and safety A focus on quality control to ensure that standards are met throughout the worldwide market

**Imagine A Country** Jan 26 2023 The first step on the road to change is to imagine possibility. *Imagine A Country* offers visions of a new future from an astonishing array of Scottish voices,

from comedians to economists, writers to musicians. Edited, curated and introduced by bestselling author Val McDermid and geographer Jo Sharp, it is a collection of ideas, dreams and ambitions, aiming to inspire change, hope and imagination. Featuring: Ali Smith, Phill Jupitus, A.L. Kennedy, Alan Cumming, Kerry Hudson, Greg Hemphill, Carol Ann Duffy, Chris Brookmyre, Alison Watt, Alasdair Gray, Leila Aboulela, Ian Rankin, Selina Hales, Sanjeev Kohli, Jackie Kay, Damian Barr, Elaine C. Smith, Abir Mukherjee, Anne Glover, Alan Bissett, Louise Welsh, Jo Clifford, Ricky Ross, Trishna Singh, Cameron McNeish, Alexander McCall Smith, Carla Jenkins, Don Paterson, and many more . . .

**Patent Law: Cases, Problems, and Materials (2nd Edition 2022)** Jul 28 2020 Patent Law: Cases, Problems, and Materials (2nd Edition 2022) is a free casebook, co-authored by Professor Jonathan S. Masur (University of Chicago Law School) and Professor Lisa Larrimore Ouellette (Stanford Law School). The casebook is made available under a Creative Commons Attribution-NonCommercial-NoDerivatives 4.0 International License. A digital version of the casebook can be downloaded free online at [patentcasebook.org](http://patentcasebook.org), and a printed copy can be purchased on Amazon at cost.

**Imagine Your Dream** May 26 2020 After setting goals last year, we've reached them and succeeded in being more happy, wealthy, healthy with a personal agenda. Every single thing that is around us has been created by people that are not smarter than you. It's your right to have your dream come true with your personal agenda. In order to appreciate how the "Imagine Your Dream" agenda works, it's important you understand the dynamic of goal settings, planning and positive affirmation. Achieving your goals depend on how hard you are working to improve. BONUS! In our site [www.mondosol.com](http://www.mondosol.com) you can book one of our accommodations getting back the money you spent for no more than 5% of the total spend and experience a holiday dream of your life. Check the instructions Inside Live your Dream from Elio and Linn Note: Inside the dates are not written so you can use this agenda when ever you want it.

**Imagine Math 7** Mar 04 2021 Imagine mathematics, imagine with the help of mathematics, imagine new worlds, new geometries, new forms. Imagine building mathematical models that make it possible to manage our world better, imagine solving great problems, imagine new problems never before thought of, imagine combining music, art, poetry, literature, architecture, theatre and cinema with mathematics. Imagine the unpredictable and sometimes counterintuitive applications of mathematics in all areas of human endeavour. This seventh volume starts with a homage to the Italian artist Mimmo Paladino who created exclusively for the Venice Conference 2019 ten original and unique works of art paper dedicated to the themes of the meeting. A large section is dedicated to the most recent Fields Medals including a Homage to Maryam Mirzakhani including a presentation of the exhibition on soap bubbles in art and science that took place in 2019. A section is dedicated to cinema and theatre including the performances by Claire Bardainne & Adrien Mondot. A part of the conference focused on the community of mathematicians, their role in literature and even in politics with the extraordinary example of Antanas Mockus Major of Bogotá. Mathematics in the constructions of bridges, in particular in Italy in the Sixties was presented by Tullia Iori. A very particular contribution on Origami by a mathematician, Marco Abate and an artist, Alessandro Beber. And many other topics. As usual the topics are treated in a way that is rigorous but captivating, detailed and full of evocations. This is an all-embracing look at the world of mathematics and culture. The world, life, culture, everything has changed in a few weeks with the Coronavirus. Culture, science are the main ways to safeguard people's physical and social life. Trust in humanity's creativity and ability. The motto today in Italy is Everything will be fine. This work is addressed to all those who have an interest in Mathematics.

**Teaching to the Brain's Natural Learning Systems** Jan 22 2020 Uses the brain's five major learning systems--emotional, social, cognitive, physical, and reflective--to provide a framework for designing lessons and determining teaching approaches.

**The Complete Idiot's Guide to Great Customer**

**Service** Oct 19 2019 Describes how to create a service-oriented organization, including training customer service representatives, soothing angry customers, and understanding employee and customer motivation

**Imagine: Using Mental Imagery to Reach Your Full Potential** Mar 24 2020 Did you know that images of the mind shape how we think, feel and behave? The way we frame scenarios has the power to impact our attitude and actions. But what if we could consciously choose to cast things in a positive light? Equipping you with the tools you need to harness the power of mental imagery, 'Imagine' will help you achieve your goals and reach your full potential. With Dr Lydia Ievleva's extensive experience incorporating mental imagery with a wide range of athletes, business and health professionals, her tried and tested advice will allow you to take back control. Featuring case studies and practical tips to set bitesize goals, forging the right mindset has never been so easy. "You can think of imagery like a screenplay -you can allow life to play you; or you can take a more active role in your destiny' - Dr Lydia Ievleva With over 25 years of experience in practice and teaching, Dr Lydia Ievleva is a psychologist with extensive experience supporting a wide range of clients. Former president of the APS College of Sport and Exercise Psychologists, she received her training in Canada and the U.S. Lydia holds the following qualifications: BA Hons Psychology, Carleton University; MSc Sport Psychology, University of Ottawa; and PhD Counselling Psychology, specialising in health and sport, Florida State University. Her work includes clients seeking health, wellbeing, relationship, performance and professional goals and she has helped countless Olympic and professional athletes, dancers, musicians, artists, writers, corporate clients. Her popular psychology books are now helping millions around the world reach their full potential.

**Mighty Ants** Dec 13 2021 The mighty ant has been around since the age of dinosaurs. These hard-working insects can be found on every continent except Antarctica. Readers will discover how ants work as a team and why they've been able to survive so long as they explore an ant colony.

**No Bones about It** Sep 22 2022 Have you ever

seen an elephant in a zoo? You know they are very big and can weigh as much as a school bus! Millions of years ago there was a dinosaur on Earth called Brachiosaurus. One Brachiosaurus weighed as much as 17 elephants! Can you imagine how big some dinosaurs must have been? In this book, readers explore a world where dinosaurs roam. And learn fascinating facts about dinos along the way.

Imagine No. 01: Facades Nov 12 2021 This book comprises various themes around imaginary facades and building envelopes. Aspects such as function integration, networking of elements, new structures and materials, as well as the addition of functions to existing structures are investigated in around 85 examples.

Antiblackness Dec 01 2020 *Antiblackness* investigates the ways in which the dehumanization of Black people has been foundational to the establishment of modernity. Drawing on Black feminism, Afropessimism, and critical race theory, the book's contributors trace forms of antiblackness across time and space, from nineteenth-century slavery to the categorization of Latinx in the 2020 census, from South Africa and Palestine to the Chickasaw homelands, from the White House to convict lease camps, prisons, and schools. Among other topics, they examine the centrality of antiblackness in the introduction of Carolina rice to colonial India, the presence of Black people and Native Americans in the public discourse of precolonial Korea, and the practices of denial that obscure antiblackness in contemporary France. Throughout, the contributors demonstrate that any analysis of white supremacy--indeed, of the world--that does not contend with antiblackness is incomplete. Contributors. Mohan Ambikaipaker, Jodi A. Byrd, Iyko Day, Anthony Paul Farley, Crystal Marie Fleming, Sarah Haley, Tanya Katerí Hernández, Sarah Ihmoud, Joy James, Moon-Kie Jung, Jae Kyun Kim, Charles W. Mills, Dylan Rodríguez, Zach Sell, João H. Costa Vargas, Frank B. Wilderson III, Connie Wun

**Imagine It! - EPlanner CD-ROM - Grade 6**

Dec 21 2019 Interconnection is the key to the ePlanner, which is the hub of the eSuite. Information tracking and organizing devices

help teachers make the most effective use of materials. Teachers can customize the lesson planner and each day's objectives to correlate with state standards.' Launch the majority of the technology components in the eSuite from ePlanner.' Set up non-instructional days for the year, and then pour your grade level curriculum in to create an instant pacing guide.' Click on links to program BLMs, through the daily lesson planner.' Display the standards for your state that are correlated through any daily lesson planner.' Email/Export/Print daily lesson plans. *The SAGE Guide to Educational Leadership and Management* Apr 05 2021 *The SAGE Guide to Educational Leadership and Management* allows readers to gain knowledge of educational management in practice while providing insights into challenges facing educational leaders and the strategies, skills, and techniques needed to enhance administrative performance. This guide emphasizes the important skills that effective leaders must develop and refine, including communication, developing teams, coaching and motivating, and managing time and priorities. While being brief, simply written, and a highly practical overview for individuals who are new to this field, this reference guide will combine practice and research, indicate current issues and directions, and choices that need to be made. Features & Benefits: 30 brief, signed chapters are organized in 10 thematic parts in one volume available in a choice of electronic or print formats designed to enable quick access to basic information. Selective boxes enrich and support the narrative chapters with case examples of effective leadership in action. Chapters conclude with bibliographic endnotes and references to further readings to guide students to more in-depth presentations in other published sources. Back matter includes an annotated listing of organizations, associations, and journals focused on educational leadership and administration and a detailed index. This reference guide will serve as a vital source of knowledge to any students pursuing an education degree as well as for individuals interested in the subject matter that do not have a strong foundation of the topic.

Imagine It! Oct 11 2021 An inspirational, accessible, and actionable guide for empowering and inspiring you to take concrete steps towards

living more sustainably. "An excellent how-to guide [and] a great read for everyone from the socially conscious family to the most ardent climate activist."—Former Vice President Al Gore *Imagine It!* is a handbook for those who want to begin or advance a journey toward living in better balance with our planet. It inspires, supports, and offers easy ways to replace old, planet-hurting habits with new healthy ones. In *Imagine It!*, the documentary filmmakers behind *Writing on the Wall*, *Fed Up*, *The Biggest Little Farm*, *The Social Dilemma*, and the Academy Award-winning *An Inconvenient Truth* highlight the need to change some of our food, clothing, and transportation habits and meaningfully lower our use of plastic, paper, water, and harmful chemicals. They call the changes in these areas lifestyle shifts, and there is a chapter devoted to each one of them in the book. Each begins with a short story on the shift being explored, and then provides clear steps for replacing old habits with new ones to create lasting change. Laurie David and Heather Reisman are no strangers to exposing hard truths and helping audiences understand their part in bringing about change. They know a cleaner, healthier world is ours for the taking—and to start, we just have to *Imagine It!*  
**National Bureau of Standards Circular** Jul 20 2022

[Women Imagine Change](#) May 18 2022 A collection of the words of women spanning some 26 centuries from every corner of the earth and from many cultures.

[The Courage to Imagine](#) Aug 09 2021 The act of imagining lies at the very heart of children's engagements with literature and with the plots and characters they encounter in their favorite stories. *The Courage to Imagine* is a landmark new study of that fundamental act of imagining. Roni Natov focuses on the ways in which children's imaginative engagement with the child hero figure can open them up to other people's experiences, developing empathy across lines of race, gender and sexuality, as well as helping them to confront and handle traumatic experience safely. Drawing on a wide range of theoretical approaches from the psychological to the cultural and reading a multicultural spectrum of authors, including works by Maya Angelou, Louise Erdrich, Neil Gaiman and Brian

Selznick, this is a groundbreaking examination of the nature of imagining for children and re-imagining for the adult writer and illustrator.

**Negation in Non-Standard British English**

Apr 24 2020 Despite the advances of radio and television and increasing mobility and urbanization, spoken English is by no means becoming more like the written standard.

English dialect grammar, however, is still a new and relatively undeveloped area of research, and most studies to date are either restricted regionally, or based on impressionistic statements. This book provides the first thorough empirical study of the field of non-standard negation across Great Britain.

*Ethics and Law for School Psychologists* Jul 08

2021 "By integrating the fields of psychology and special education . . . [t]his book provides a valuable reference for graduate faculty members and students as well as practitioners." -Linda K. Knauss, PhD, Assistant Professor and Director of Internship Training Institute for Graduate Clinical Psychology, Widener University "A must-read for any comprehensive school psychology law and ethics course. I could not imagine teaching the course without the support of this book." -Kara E. McGoey, PhD, Assistant Professor School Psychology Program, Kent State University This completely updated edition of the leading ethics and law guide for students, as well as practicing school psychologists, provides authoritative, timely information on professional standards and legal requirements pertinent to the delivery of school psychological services. *Ethics and Law for School Psychologists, Fourth Edition* covers a host of ethical and legal issues that are unique to the field, including: \* Students' and parents' rights to privacy and informed consent \* Confidentiality and the duty to protect \* Psychoeducational assessment and intervention \* Schooling for students with special needs \* School discipline and violence prevention \* Provision of culturally sensitive services to diverse clientele \* Protection of the rights of sexual minority students \* Supervision of school psychologists in training Offering a wealth of new information, this book includes recent

changes in professional standards such as the 2002 revision of the American Psychological Association's "Ethical Principles and Code of Conduct" and the 2000 revision of the National Association of School Psychologists' "Principles for Professional Ethics." The discussion of the Individuals with Disabilities Education Act (IDEA) incorporates the 1999 regulations as well as recent developments in case law. The ethical and legal mandate to respect cultural, linguistic, and role differences is given greater emphasis throughout this edition.

*Imagine* Jun 07 2021 Essays on the contemporary geo-political situation and the need for new leadership to focus their work for world peace.

Imagine John Yoko Dec 25 2022 Personally compiled and curated by Yoko Ono, *Imagine John Yoko* is the definitive inside story-told in revelatory detail-of the making of the legendary album and all that surrounded it: the locations, the creative team, the artworks and the films, in the words of John & Yoko and the people who were there. Features 80% exclusive, hitherto-unpublished archive photos and footage sequences of all the key players in situ, together with lyric sheets, Yoko's art installations, and exclusive new insights and personal testimonies from Yoko and over forty of the musicians, engineers, staff, celebrities, artists and photographers who were there-including Julian Lennon, Klaus Voormann, Alan White, Jim Keltner, David Bailey, Dick Cavett and Sir Michael Parkinson. "A lot has been written about the creation of the song, the album and the film of *Imagine*, mainly by people who weren't there, so I'm very pleased and grateful that now, for the first time, so many of the participants have kindly given their time to 'gimme some truth' in their own words and pictures" -Yoko Ono Lennon, 2018 In 1971, John Lennon & Yoko Ono conceived and recorded the critically acclaimed album *Imagine* at their Georgian country home, Tittenhurst Park, in Berkshire, England, in the state-of-the-art studio they built in the grounds, and at the Record Plant in New York. The lyrics of the title track were inspired by Yoko Ono's "event scores" in her 1964 book *Grapefruit*, and she was officially co-credited as writer in June 2017. *Imagine John Yoko* tells the story of John & Yoko's life, work and relationship during this

intensely creative period. It transports readers to home and working environments showcasing Yoko's closely guarded archive of photos and artifacts, using artfully compiled narrative film stills, and featuring digitally rendered maps, floorplans and panoramas that recreate the interiors in evocative detail. John & Yoko introduce each chapter and song; Yoko also provides invaluable additional commentary and a preface. All the minutiae is examined: the locations, the key players, the music and lyrics, the production techniques and the artworks-including the creative process behind the double exposure polaroids used on the album cover. With a message as universal and pertinent today as it was when the album was created, this landmark publication is a fitting tribute to John & Yoko and their place in cultural history.

Imagine Math 6 Mar 16 2022 *Imagine mathematics*, imagine with the help of mathematics, imagine new worlds, new geometries, new forms. Imagine building mathematical models that make it possible to manage our world better, imagine combining music, art, poetry, literature, architecture and cinema with mathematics. Imagine the unpredictable and sometimes counterintuitive applications of mathematics in all areas of human endeavour. Imagination and mathematics, imagination and culture, culture and mathematics. This sixth volume in the series begins with a homage to the architect Zaha Hadid, who died on March 31st, 2016, a few weeks before the opening of a large exhibition of her works in Palazzo Franchetti in Venice, where all the Mathematics and Culture conferences have taken place in the last years. A large section of the book is dedicated to literature, narrative and mathematics including a contribution from Simon Singh. It discusses the role of media in mathematics, including museums of science, journals and movies. Mathematics and applications, including blood circulation and preventing crimes using earthquakes, is also addressed, while a section on mathematics and art examines the role of math in design. A large selection presents photos of mathematicians and mathematical objects by Vincent Moncorge. Discussing all topics in a way that is rigorous but captivating, detailed but full of evocations, it offers an all-

embracing look at the world of mathematics and culture.

**Journal of the Franklin Institute** Sep 10 2021

**The Psychological Science of Money** Jan 02

2021 Money. The root of all evil? Arguably.

Essential to our lives? Certainly. A main driver of human thought, emotion, and action? Absolutely-

and psychology and its related fields are getting closer to understanding its complex role in

human behavior and in society. The

Psychological Science of Money brings together

classic and current findings on the myriad ways

money affects brain, mind, and behavior to

satisfy not only our needs for material gain, but

also for autonomy and self-worth. Leading

experts trace the links between early concepts of

value and modern symbolic meanings of wealth,

in addition to identifying the areas of the human

brain that together act as its financial center.

This cross-disciplinary analysis helps clarify the

neuroscience behind pathological gambling, the

critical role of time in financial decisions, and

the impact of money on diverse personal

activities and interpersonal relationships.

Included in the coverage: Materiality, symbol,

and complexity in the anthropology of money.

The (relative and absolute) subjective value of

money. Conscious and unconscious influences of

money: two sides of the same coin? A life-course

approach to dealing with monetary gains and

losses Motivation and cognitive control: beyond

monetary incentives. An integrative perspective

on the science of getting paid. The psychological

science of spending. The unique role of money in

society makes The Psychological Science of

Money a singularly fascinating resource with a

wide audience among social psychologists,

industrial and organizational psychologists,

economists, sociologists, anthropologists, and

public policymakers.

Only Imagine Feb 27 2023 Only Imagine offers a

theory of fictional content or, as it is sometimes

known, 'fictional truth'. The theory of fictional

content Kathleen Stock argues for is known as

'extreme intentionalism'; the idea that the

fictional content of a particular work is

equivalent to exactly what the author of the

work intended the reader to imagine.

Historically, this sort of view has been highly

unpopular. Literary theorists and philosophers

alike have poured scorn upon it. The first half of

this book attempts to argue that it should in fact

be taken very seriously as an adequate account

of fictional truth: better, in fact, than many of its

more popular rivals. The second half explores

various explanatory benefits of extreme

intentionalism for other issues in the philosophy

of fiction and imagination. Namely, can fiction

give us reliable knowledge? Why do we 'resist'

imagining certain fictions? What, in fact, is a

fiction? And, how should the imagination be

characterised?
