The Sulzer Centrifugal Pump Handbook takes full account of the progress that has recently been made in pump construction. All the experience gained by CCM-Sulzer and others in pump construction and pump behaviour in systems has been assembled and related to various fields of application. Production areas such as cavitation, erosion, selection of materials, rotor vibration behaviour, forces acting on pumps, operating performance in various types of circuitry, drives and acceptance testing are dealt with in detail. The Handbook is an excellent reference work by one of the world's foremost pump manufacturers. It presents the current state-of-the-art in pump construction and is directed to planners and operating companies alike. CB100 (1970-1972), CB125S (1973-1982), XL125

Today it has come to symbolize scootering status, style, and freedom. As Vespa reaches its 60s without showing a wrinkle, this book celebrates its decades of incomparable spirit. In glowing images and words, the book shows Vespa in its many guises—as the two-wheeled vehicle of the post-war economic boom; as the symbol of the forward-charging ideas of the 1960s; appearing in romantic films such as Roman Holiday; and promoted in delirious ads that claimed, "Whoever Vespas, eats apples." Decades of period ads and famous calendars are included, as well as technical and production information on every model ever built, including rare prototypes and variants. Each model is detailed in over 30 categories, from engine specs to production facts. Filled with stunning color photos and illustrations, the book is itself a stylish tribute to the iconic vehicle it celebrates. Author Giorgio Sarti knows Vespa, and this book is a thorough and thoroughly enchanting tribute to the scooter as it has sped through history, meaning something new to each generation, and in the process making its unique mode of personal transport synonymous with freedom. Officially licensed and includes a foreword from Piaggio Group President Roberto Colaninno. From the publishers of Motorcycle Consumer News, Shifting Gears at 50 is a one-of-a-kind motorcycling manual for returning and late-entry riders, essentially anyone 40 years old and up who's looking to hit the road on two wheels. Author Philip Buonpastore, a motorcycle journalist and retired US Air Force photographer, helps readers gear up to get back on a motorcycle (or get on one for the first time). In Part 1, "Becoming a Motorcyclist," Buonpastore discusses the basics of buying the right bike, gear, and equipment and getting the bike up to speed. The book continues with a good overview of learning to ride, the importance of taking a road course, venturing out on the first ride, and extending rides to long-distance jaunts. Throughout Part 1 are sidebars by riding- safety instructor and expert Walt Fulton, offering sound advice on safety precautions and execution for every leg of the new and returning rider's journey. The author emphasizes what older riders should be aware of and which factors can affect their rides. Adding lots of great firsthand advice are humorous and helpful stories collected by the author and related by returning riders at various ages, from their late 30s to 60s. In Part 2, Buonpastore shares five of his favorite travelogues covering his long-distance tours around the US, from the American South to the west coasts. This section is illustrated by over 100 of the author's breathtaking photographs of the various locations he toured on his bike. The foreword to the book is provided by best-selling motorcycle author David Hough (author of I-5 Press's Proficient Motorcycling and Mastering the Ride). Hough writes, "If you're getting into today's motorcycling at an age your doctor would describe as 'middle aged' or 'senior,' do you yourself a clever favor and read Phil's book."
