County and Financial Report

Social media is central to postsecondary education. It is how students engage with the campus community, and campus leaders and practitioners are interested in how an institution can employ social media to impact instruction, student services and institutional effectiveness in an increasingly competitive market. This volume presents the current research and scholarship on social media that provides a view of the higher education landscape in this new digital age and it demonstrates how social media influence behavior and campus culture. Drawing on a critical synthesis and analysis from recent research on this rapidly evolving phenomenon, this monograph examines: some of the assumptions and presumptions around social media, how social media is used and how it shapes the student experience and student development, and best practices for enhancing curricular and co-curricular communities of practice. This is the 5th issue of the 42nd volume of the Jossey-Bass series ASHE Higher Education Report. Each monograph is the definitive analysis of a tough higher education issue, based on thorough research of pertinent literature and institutional experiences. Topics are identified by a national survey. Noted practitioners and scholars are then commissioned to write the reports, with experts providing critical reviews of each manuscript before publication.

AIMD-98-42 Deferred Maintenance Reporting: Challenges to Implementation Includes rosters and registers of officers in the Alabama militia and various financial statistical data. Together with a list of auxiliary and cooperating societies, their officers, and other data. This book is concerned with the financial accounting and reporting of publicly owned corporations to their shareholders. It examines the origins of financial accounting and reporting, external influences on accounting and reporting practices as well as the measurement process.

PROC REPORT by Example: Techniques for Building Professional Reports Using SAS provides real-world examples using PROC REPORT to create a wide variety of professional reports. Written from the point of view of the programmer who produces the reports, this book explains and illustrates creative techniques used to achieve the desired results. Each chapter focuses on a different concrete example, shows an image of the final report, and then takes you through the process of creating that report. You will be able to break each report down to find out how it was produced, including any data manipulation you have to do. The book clarifies solutions to common, everyday programming challenges and typical daily tasks that programmers encounter. For example: obtaining desired report formats using style templates supplied by SAS and PROC TEMPLATE, PROC REPORT STYLE options, and COMPUTE block features employing different usage options (DISPLAY, ORDER, GROUP, ANALYSIS, COMPUTED) to create a variety of detail and summary reports using BREAK statements and COMPUTE blocks to summarize and report key findings producing reports in various Output Delivery System (ODS) destinations including RTF, PDF, XML, TAGSETS.RTF embedding images in a report and combining graphical and tabular data with SAS 9.2 and beyond Applicable to SAS users from all disciplines, the real-life scenarios will help elevate your reporting skills learned from other books to the next level. With PROC REPORT by Example: Techniques for Building Professional Reports Using SAS, what seemed complex will become a matter of practice. This book is part of the SAS Press program.
