Heathen, Hindoo, Hindu is a groundbreaking analysis of American representations of religion in India before the turn of the twentieth century. Before Americans wrote about "Hinduism," they wrote about "heathenism," "the religion of the Hindoos," and "Brahmanism." Americans used the heathen, Hindoo, and Hindu as an other against which they represented themselves. The questions of American identity, classification, representation and the definition of "religion" that animated descriptions of heathens, Hindoos, and Hindus in the past still animate American debates today. An early western exploration of Hinduism and other eastern traditions such as the Kabbalah, from the angle that India might hold the key the origin of western, Egyptian, and Judaeo-Christian esoteric traditions. A high point of the book seems to be a travelogue of India featuring the author's encounters with a fakir's many demonstrations of his yogic powers.--Yog-Sothoth.com website (accessed 18 July 2022). This is a reproduction of a book published before 1923. This book may have occasional imperfections such as missing or blurred pages, poor pictures, errant marks, etc. that were either part of the original artifact, or were introduced by the scanning process. We believe this work is culturally important, and despite the imperfections, have elected to bring it back into print as part of our continuing commitment to the preservation of printed works worldwide. We appreciate your understanding of the imperfections in the preservation process, and hope you enjoy this valuable book. ++++ The below data was compiled from various identification fields in the bibliographic record of this title. This data is provided as an additional tool in helping to ensure edition identification: ++++ The Bible In India: Hindoo Origin Of Hebrew And Christian Revelation Louis Jacolliot Carleton, Publisher, Madison Square, 1875 Christianity and other religions Table of contents Drawing Upon Varions Sources And Currents Folk, Tribal, And The Multilayered Sanskritic Tradition The Author Offers In This Volume, Major Insights Into The Complex Cultural History Of Hindu Traditions. The study of Hindu mythology explores the significance of the most prominent Hindu deities as they are envisioned by the Hindus themselves. Referred to by its adherents as the "eternal religion," Hinduism recognizes for each age and each country a new form of revelation--and for each person, according to his or her stage of development, a different path of realization. This widely praised study of Hindu deities reveals the message of tolerance and adaptability at the heart of this ancient religion. Hinduismus. Shivaji is a well-known hero in western India. He defied Mughal power in the seventeenth century, established an independent kingdom, and had himself crowned in an orthodox Hindu ceremony. The legends of his life have become an epic story that everyone in western India knows, and an important part of the Hindu nationalists' ideology. To read Shivaji's legend today is to find expression of deeply held convictions about what Hinduism means and how it is opposed to Islam. James Laine traces the origin and development if the Shivaji legend from the earliest sources to the contemporary accounts of the tale. His primary concern is to discover the meaning of Shivaji's life for those who have composed-and those who have read-the legendary accounts of his military victories, his daring escapes, his relationships with saints. In the process, he paints a new and more complex picture of Hindu-Muslim relations from the seventeenth century to the present. He argues that this relationship involved a variety of compromises and strategies, from conflict to accommodation to nuanced collaboration. Neither Muslims nor Hindus formed clearly defined communities, says Laine, and they did not relate to each other as opposed monolithic groups. Different sub-groups, representing a range of religious persuasions, found it in their advantage to accentuate or diminish the importance of Hindu and Muslim identity and the ideologies that supported the construction of such identities. By studying the evolution of the Shivaji legend, Laine demonstrates, we can trace the development of such constructions in both pre-British and post-colonial periods. To scholars in the field, the need for an up-to-date overview of the art of South Asia has been apparent for decades. Although many regional and dynastic genres of Indic art are fairly well understood, the broad, overall representation of India's centuries of splendor has been lacking. The Art of Ancient India is the result of the author's aim to provide such a synthesis. Noted expert Sherman E. Lee has commented: --Not since Coomaraswamy's History of Indian and Indonesian Art (1927) has there been a survey of such completeness." Indeed, this work restudies and reevaluates every frontier of ancient Indic art \_ from its prehistoric roots up to the period of Muslim rule, from the Himalayan north to the tropical south, and from the earliest extant writing through the most modern scholarship on the subject. This dynamic survey-generously complemented with 775 illustrations, including 48 in full color and numerous architectural ground plans, and detailed maps and fine drawings, and further enhanced by its guide to Sanskrit, copious notes, extensive bibliography, and glossary of South Asian art terms-is the most comprehensive and most fully illustrated study of South Asian art available. The works and monuments included in this volume have been selected not only for their artistic merit but also in order to both provide general coverage and include transitional works that furnish the key to an all encompassing view of the art. An outstanding portrayal of ancient India's highest intellectual and technical achievements, this volume is written for many audiences: scholars, for whom it provides an up-to-date background against which to examine their own areas of study; teachers and students of college level, for whom it supplies a complete summary of and a resource for their own deeper investigations into Indic art; and curious readers, for whom it gives a broad-based introduction to this fascinating area of world art. An engrossing and definitive narrative account of history and myth that offers a new way of understanding one of the world's oldest major religions, The Hindus elucidates the relationship between recorded history and imaginary worlds. Hinduism does not lend itself easily to a strictly chronological account: many of its central texts cannot be reliably dated even within a century; its central tenets karma, dharma, to name just two arise at particular moments in Indian history and differ in each era, between genders, and caste to caste; and what is shared among Hindus is overwhelmingly outnumbered by the things that are unique to one group or another. Yet the greatness of Hinduism - its vitality, its earthiness, its vividness - lies precisely in many of those idiosyncratic qualities that continue to inspire debate today. Wendy Doniger is one of the foremost scholars of Hinduism in the world. With her inimitable insight and expertise Doniger illuminates those moments within the tradition that resist forces that would standardize or establish a canon. Without reversing or misrepresenting the historical hierarchies, she reveals how Sanskrit and vernacular sources are rich in knowledge of and compassion toward women and lower castes; how they debate tensions surrounding religion, violence, and tolerance; and how animals are the key to important shifts in attitudes toward different social classes. The Hindus brings a fascinating multiplicity of actors and stories to the stage to show how brilliant and creative thinkers - many of them far removed from Brahmin authors of Sanskrit texts - have kept Hinduism alive in ways that other scholars have not fully explored. In this unique and authoritative account, debates about Hindu traditions become platforms from which to consider the ironies, and overlooked epiphanies, of history. Modelled on A.L. Basham's monumental work The Wonder That Was India, this account of the Origins and Development of Classical Hinduism represents a lifetime of reflection on the subject, and offers an intriguing introduction to one of richest of all Asian traditions. The late A. L. Basham was one of the world's foremost authorities on ancient Indian culture and religion. Modelled on his monumental work The Wonder That Was India, this account of the origins and development of classical Hinduism represents a lifetime of reflection on the subject, and offers an intriguing introduction to one of richest of all Asian traditions. Synthesizing Basham's great knowledge of the art, architecture, literature, and religion of South Asia, this concise history traces the spiritual life of Indian from the time of the Indus Culture through the crystallization of classical Hinduism in the first centuries of the common era, and includes a final chapter by the editor, Kenneth G. Zysk, on Hinduism after the classical period. Uniquely comprehensive, it chronicles as well the rise of other mystical and ascetic traditions, such as Buddhism and Jainism, and follows Hinduism's later incarnations in the West. With its vivid presentation of Hinduism's sources and its clearly written explanations and analyses of the major Hindu texts-among them the Rg-veda, the Brahmanas, Upanisads, and the Mahabharata and Ramayana-The Origins of Classical Hinduism clarifies much of Hinduism's enduring mystique. Offering an especially helpful bibliography, numerous illustrations of Hindu art never before published, and a lucid, accessible style, this book is must reading for anyone who has ever been intrigued by this fascinating religion. A three-volume history of Mysore from early times to its fall to the British in 1799, first published 1810-17. This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it.
