Reinventing Richard Nixon Jul 22 2020 "Examining Nixon's autobiographies and political memorabilia, Frick offers far-reaching perceptions not only of the man but of Nixon's version of himself - contrasted with those who would interpret him differently. He cites reinventions of Nixon from the late 1980s, particularly the museum at the Richard Nixon Library and Birthplace, to demonstrate the resilience of certain national mythic narratives in the face of liberal critiques. And he recounts how celebrants at Nixon's state funeral, at which Bob Dole's eulogy depicted a God-fearing American hero, attempted to bury the sources of our divisions over him, rendering in some minds the judgment of "redeemed statesman" to erase his status as "disgraced president." "With dozens of illustrations - Nixon posing with Elvis (the National Archives' most requested photo), Nixonian cultural artifacts, classic editorial cartoons - no other book collects in one place such varied images of Nixon from so many diverse media. These reinforce Frick's probing analysis to help us understand why we disagree about Nixon - and why it matters how we resolve our disagreements."--BOOK JACKET.

Last Days Dec 27 2020 Last Days (winner of the British Fantasy Award for Best Horror Novel of the Year) by Adam Nevill is a Blair Witch style novel in which a documentary film-maker undertakes the investigation of a dangerous cult—with creepy consequences When guerrilla documentary maker, Kyle Freeman, is asked to shoot a film on the notorious cult known as the Temple of the Last Days, it appears his prayers have been answered. The cult became a worldwide phenomenon in 1975 when there was a massacre including the death of its infamous leader, Sister Katherine. Kyle's brief is to explore the paranormal myths surrounding an organization that became a testament to paranoia, murderous rage, and occult rituals. The shoot's locations take him to the cult's first temple in London, an abandoned farm in France, and a derelict copper mine in the Arizonan desert where The Temple of the Last Days met its bloody end. But when he interviews those involved in the case, those who haven't broken silence in decades, a series of uncanny events plague the shoots. Troubling out-of-body experiences, nocturnal visitations, the sudden demise of their interviewees and the discovery of ghastly artifacts in their room make Kyle question what exactly it is the cult managed to awaken – and what is its interest in him?

Direct Red Oct 13 2019 In this powerful and sometimes shocking account, a surgeon reveals her experience of hospital life with rare frankness. In her mid-twenties, Gabriel Weston - an arts graduate with no scientific qualification beyond high school-level biology - decided to become a surgeon. She enrolled at night school, then went through many years of medical school and surgical training. Now in her late thirties, she has achieved her ambition and is working as a surgeon in a British hospital. "But I have never quite managed to shake off the feeling that I am an imposter," she says. "Even when operating, it sometimes seems like I am on the outside looking in." *Direct Red* is the result of those observations. It is a superbly written, startlingly raw account of her experience of life in a hospital. All her own doubts, mistakes, and incongruous triumphs are faithfully recorded. It is also a revealing and at times chilling account of what she sees around her. The world of surgery is secret and closed - or was until now. Excerpt I knew that this man needed to be opened up immediately. I phoned the on-call consultant, offering to meet him in theatre. "Not so fast," he objected. "You youngsters are always in such a hurry." When he finally did concede that we needed to go to theatre, he picked up a coffee on the way. Physiology forced pace on the situation: once we cut the man open, we were confronted with the sight of the hollow cavern of the patient's abdomen filling with blood as quickly as a basin fills with water. This consultant did not have a clue what to do; didn't know the simplest emergency measures. He dressed his incompetence in a mannered slowness of action. It took him almost an hour to admit he wasn't coping, at which point he shouted at the scrub nurse: "Get me another surgeon! Any surgeon!" The night taught me the paramount value of a quick response.

On their drive home to San Francisco, along a stretch of empty highway in the middle of the Nevada night, a bird flies into their headlights. The car flips over. When they wake up in a military hospital, the doctor won't tell them what happened, where they are--or how they've been miraculously healed. Things become even stranger when Reese returns home. San Francisco feels like a different place with police enforcing curfew, hazmat teams collecting dead birds, and a strange presence that seems to be following her. When Reese unexpectedly collides with the beautiful Amber Gray, her search for the truth is forced in an entirely new direction--and threatens to expose a vast global conspiracy that the government has worked for decades to keep secret. *Adaptation* is a bold contemporary science-fiction thriller from the acclaimed author of *Ash*.
