#1 NEW YORK TIMES BESTSELLER · INSTANT INTERNATIONAL BESTSELLER From Dr. Nicole LePera, creator of "the holistic

psychologist"—the online phenomenon with more than two million Instagram followers—comes a revolutionary approach to healing that harnesses the power of the self to produce lasting change. As a clinical psychologist, Dr. Nicole LePera often found herself frustrated by the limitations of traditional psychotherapy. Wanting more for her patients—and for herself—she began a journey to develop a united philosophy of mental, physical and spiritual wellness that equips people with the interdisciplinary tools necessary to heal themselves. After experiencing the life-changing results herself, she began to share what she'd learned with others—and soon "The Holistic Psychologist" was born. Now, Dr. LePera is ready to share her much-requested protocol with the world. In *How to Do the Work*, she offers both a manifesto for SelfHealing as well as an essential guide to creating a more vibrant, authentic, and joyful life. Drawing on the latest research from a diversity of scientific fields and healing modalities, Dr. LePera helps us recognize how adverse experiences and trauma in childhood live with us, resulting in whole body dysfunction—activating harmful stress responses that keep us stuck engaging in patterns of codependency, emotional immaturity, and trauma bonds. Unless addressed, these self-sabotaging behaviors can quickly become cyclical, leaving people feeling unhappy, unfulfilled, and unwell. In *How to Do the Work*, Dr. LePera offers readers the support and tools that will allow them to break free from destructive behaviors to reclaim and recreate their lives. Nothing short of a paradigm shift, this is a celebration of empowerment that will forever change the way we approach mental wellness and self-care. I was always the one not in the pictures as I was always taking them. In this life long process I learned the difference between a picture and a photo. A picture is what

we take and a photo has a story. One of my greatest photographic thrills is to have people look at me when I'm photographing something, then look in the direction I'm photographing and look back at me. Then they look again at the direction I'm photographing. Seeing the look of what is he doing? What does he see? Fills me with the "What" the juice of my being?" Or to be asked: "How long did it take you to take that photo?" Answer: "All my life!" Or to be told: "I have a camera, I could take that photo." Reply: Great, go, do it, and find this moment for you. You'll enjoy it. This is not a technical book, it's a PHOTOGRAPHY IS FUN book and every photo has a STORY. The equipment doesn't make you a professional or even a good photographer. YOU DO! Technology rules in so much of our world. It answers our questions, computes our math, governs so much of our lives, tells us what month, day, and time it is, has taken society from knowing ones neighbors to not knowing who lives next door, but at the same time it has shrunk our world to bring us closer together in mind, body, and spirit. There is a saying: "We are all one people" and technology has brought that to the forefront more than before. At the same time it has challenged outdoor activities, social contact, and human nature. There are so many technical photography books but none that I know of tell the story of why the photo taken. I want people to learn how to see what others don't, to look for the banquet Mother Natures gives us everyday, to feel the photo, and to become aware of the pure fun and joy of photography. This book deals with contemporary epistemological questions, connecting Educational Philosophy with the field of Science and Technology Studies. It can be understood as a draft of a general theory of world-disclosure, which is in its core a distinction between two forms of world-disclosure: experiment and exploration. These two forms have never been clearly distinguished before. The focus lies on the experimental form of world-disclosure, which is described in detail and in contrast to the explorational form along the line of twenty-one characteristics, which are mainly derived from empirical studies of experimental work in the field of natural sciences. It can also be understood as an attempt to integrate elements of the Anglo-Saxon Philosophy of Science with elements of the German tradition of Educational Philosophy. This is also reflected in the style of writing. In accordance to the content-level of the book, the argument for experimental forms of world-disclosure is written in an essayistic,

readable style, which can be understood as an experimental form of writing. This book is a translation of the doctoral thesis 'Experiment und Exploration. Bildung als experimentelle Form der Welterschließung' (summa cum laude). The thesis was published in German in 2010 by Transcript (Bielefeld) in the series called 'Theorie Bilden', edited by Prof. Dr. Hannelore Faulstich-Wieland, Prof. Dr. Hans-Christoph Koller, Prof. Dr. Karl-Josef Pazzini and Prof. Dr. Michael Wimmer. Take charge of your career by taking charge of your business relationships and communication skills. We all know how it feels when our colleagues talk about us but not to us. It's frustrating, and it creates tension. When effective communication is missing in the workplace, employees feel like they're working in the dark. Leaders don't have crucial conversations; managers are frustrated when outcomes are not what they expect; and employees often don't get positive feedback or constructive feedback. Many of us remain passive against poor communication habits and communication barriers, hoping that business communication will miraculously improve--but it won't. Business communication and relationships won't improve without skills and effort. The people you work with can work with you, around you, or against you. How people work with you depends on the business relationships you cultivate. Do your colleagues trust you? Can they speak openly to you when projects and tasks go awry? Do you have effective communication skills? Take charge of your career by eliminating communication barriers and taking charge of your business relationships. Make your work environment less tense and more productive by improving communication skills. Set relationship expectations, work with people how they like to work, and give positive feedback and constructive feedback. In *How to Say Anything to Anyone*, you'll learn how to: - ask for what you want at work - improve communication skills - strengthen all types of working relationships - reduce the gossip and drama in your office - tell people when you're frustrated and have difficult conversations in a way that resonates - take action on your ideas and feelings - get honest positive feedback and constructive feedback on your performance Harley shares the real-life

stories of people who have struggled to get what they want at work. With her clear and specific business communication roadmap in hand, Harley enables you to improve communication skills and create the career and business relationships you really want--and keep them. The inspirational bestseller that ignited a movement and asked us to find our WHY Discover the book that is captivating millions on TikTok and that served as the basis for one of the most popular TED Talks of all time—with more than 56 million views and counting. Over a decade ago, Simon Sinek started a movement that inspired millions to demand purpose at work, to ask what was the WHY of their organization. Since then, millions have been touched by the power of his ideas, and these ideas remain as relevant and timely as ever. START WITH WHY asks (and answers) the questions: why are some people and organizations more innovative, more influential, and more profitable than others? Why do some command greater loyalty from customers and employees alike? Even among the successful, why are so few able to repeat their success over and over? People like Martin Luther King Jr., Steve Jobs, and the Wright Brothers had little in common, but they all started with WHY. They realized that people won't truly buy into a product, service, movement, or idea until they understand the WHY behind it. START WITH WHY shows that the leaders who have had the greatest influence in the world all think, act and communicate the same way—and it's the opposite of what everyone else does. Sinek calls this powerful idea The Golden Circle, and it provides a framework upon which organizations can be built, movements can be led, and people can be inspired. And it all starts with WHY. What do banking and weight loss have in common? They aren't the same thing, but they are related. Just look at the national news to confirm this insight. Newspapers are simultaneously reporting the rise of obesity and the fall of the dollar. In their paradigm shifting book, How to Lose Weight and Gain Money: A Program for Putting Your Life in Order, Logan and Schapera help you bridge the gap between these two national dilemmas. After providing insight and explanation, they help you through empowering exercises designed to guide and support you

through your desired changes. How to Lose Weight and Gain Money: A Program for Putting Your Life in Order teaches you how to integrate the abundance of facts and information available on weight and finances. From Dr. Phil to Dr. Atkins... from Suze Orman to Jane Bryant Quinn, How to Lose Weight and Gain Money is the ideal companion to your preferred diet and financial books. You'll find yourself making a psychological leap you never conceived of before reading the book. And, you'll end up on the other side, healthier, happier more in control of your weight and finances than you ever thought possible. "What counts is what's written on your curriculum vitae, what you've done." Until yesterday this was the rule that governed rising to the top in the professional world. The current job market, on the other hand, seems to be increasingly interested in the so-called soft skills, the aptitude skills that make one profile more suitable than another. The "queen" of these soft skills, the one that will allow both young people and their elders to face the exponential social and technological changes that await us, is the ability to create and maintain interpersonal and professional relationships over time. In other words: networking. The book tells a personal story in a simple, passionate and detailed way so that readers can understand the dynamics that regulate the creation of an effective network of contacts. Real cases are dissected in clear, methodological takeaways and summed up by quotes that show how the fruits of forty years can be replicated and are within the reader's reach through training and good techniques. ** USA Today Bestseller ** The founder of Scott's Cheap Flights explains why we're searching for airfare all wrong, shares the strategies that have saved his two million newsletter subscribers a collective \$500 million on airfare, and presents a bold new approach for how to see the world while never overpaying for flights again. When Scott Keyes booked flights to Italy for \$130 roundtrip and Japan for \$169 roundtrip, he didn't just uncover amazing fares; it was the beginning of a new approach that makes travel possible for anyone who has dreamed of seeing the world. What's stopping us all from traveling more? The confusion of buying airfare—not knowing when to book, where to buy, or what to

pay. *Take More Vacations* is the guidebook for anyone hoping to turn one annual vacation into three. Readers will discover why the traditional way of planning vacations undercuts our ability to enjoy them, and how a new strategy can lead to cheaper fares and more trips. Why cheap flights never have to be inconvenient flights, and all the steps you can take to get a good fare even when you don't have flexibility. The surprising best week for international travel, and how small airports actually get the best deals. *Keyes* challenges the conventional wisdom that it costs thousands of dollars to fly overseas and shows readers how to make previously unthinkable trips possible. This is the second, revised and expanded edition. The first edition was published under the slightly longer title "How to Take Smart Notes. One Simple Technique to Boost Writing, Learning and Thinking - for Students, Academics and Nonfiction Book Writers". The key to good and efficient writing lies in the intelligent organisation of ideas and notes. This book helps students, academics and other knowledge workers to get more done, write intelligent texts and learn for the long run. It teaches you how to take smart notes and ensure they bring you and your projects forward. The *Take Smart Notes* principle is based on established psychological insight and draws from a tried and tested note-taking technique: the *Zettelkasten*. This is the first comprehensive guide and description of this system in English, and not only does it explain how it works, but also why. It suits students and academics in the social sciences and humanities, nonfiction writers and others who are in the business of reading, thinking and writing. Instead of wasting your time searching for your notes, quotes or references, you can focus on what really counts: thinking, understanding and developing new ideas in writing. Dr. Sönke Ahrens is a writer and researcher in the field of education and social science. He is the author of the award-winning book "Experiment and Exploration: Forms of World Disclosure" (Springer). Since its first publication, *How to Take Smart Notes* has sold more than 100,000 copies and has been translated into seven languages. *How to be a Nurse or Midwife Leader* is an indispensable guide for all nurses and midwives who wish to develop and improve their practice as leaders.

Written in collaboration with the NHS Leadership Academy, this practical book draws on the real experience of over 10,000 nurses and midwives to bring leadership dilemmas to life in specific situations. Key learning features include: How to develop your self-awareness How to develop your personal impact and presence How to survive and thrive How to get your message across How to get the best out of others How to work with and lead other professionals and patients How to have courageous conversations How to balance conflicting demands and needs Containing exercises and reflective questions to help apply theory to leadership practice, *How to be a Nurse or Midwife Leader* is an ideal companion for all nurses and midwives, whether you are newly qualified, or stepping into a team leader role. In today's world, much unlike the world of long ago, before the 1980s--where women probably and seemingly didn't play as many games and didn't scheme as much as the women of today--one can clearly see, witness, and attest to the ever-present and overwhelming amount of game playing and scheming ways of most of the females we know, know of, see, and interact with on a day-to-day basis. Most every man, at one point or some point in his life, has fallen victim to a game or scheme of a female whom he has either tried to get with or hook up with, and many guys get hit with games and schemes even with those that they are married to or in relationships with. Practically no man is exempt. We all at some point will find ourselves faced with a woman whose sole purpose is to either go for what's in our pockets or bank accounts, or to try to get us to do something for them for free or to get us to buy them stuff without them appreciating it and then turning around and buying us stuff too as well. That's a big part of the world we live in as far as men interacting with women, and the sole purpose of this book is to at least get guys to recognize when they are being played and to not fall for the simple games that women play twenty-four hours a day. Is your church facing a period of change? Are you overwhelmed with too much to do? Or are you searching for a new vision? If you are looking to take your church in a new direction, then *How to Develop Your Local Church* can help you decide which path to follow. Written by an experienced

practitioner, it will help you to understand your congregation better: how it operates, what its members take for granted, what their priorities are and what the 'character' of the congregation is. The book then explains some of the reasons for frustration and conflict in church life, and points to positive ways forward, giving guidance on planning and decision-making. Just as no two churches are the same, there is no 'one-size-fits-all' answer to how your church might develop. Rather, it is only by drawing upon the collective wisdom of the local congregation that worthwhile change will begin to happen. Reveals how life-and-death decisions are made in an era of high-technology, high-cost medicine and how patients and families can demand respect for their personal beliefs and wishes. Having clear boundaries is essential to a healthy, balanced lifestyle. A boundary is a personal property line that marks those things for which we are responsible. In other words, boundaries define who we are and who we are not. Boundaries impact all areas of our lives: Physical boundaries help us determine who may touch us and under what circumstances -- Mental boundaries give us the freedom to have our own thoughts and opinions -- Emotional boundaries help us to deal with our own emotions and disengage from the harmful, manipulative emotions of others -- Spiritual boundaries help us to distinguish God's will from our own and give us renewed awe for our Creator -- Often, Christians focus so much on being loving and unselfish that they forget their own limits and limitations. When confronted with their lack of boundaries, they ask: - Can I set limits and still be a loving person? - What are legitimate boundaries? - What if someone is upset or hurt by my boundaries? - How do I answer someone who wants my time, love, energy, or money? - Aren't boundaries selfish? - Why do I feel guilty or afraid when I consider setting boundaries? Dr. Henry Cloud and Dr. John Townsend offer biblically-based answers to these and other tough questions, showing us how to set healthy boundaries with our parents, spouses, children, friends, co-workers, and even ourselves. ** A New York Times Bestseller ** NAMED ONE OF THE BEST BOOKS OF THE YEAR BY: Time • The New Yorker • NPR • GQ • Elle • Vulture • Fortune • Boing Boing • The Irish Times • The New York Public Library • The

Brooklyn Public Library "A complex, smart and ambitious book that at first reads like a self-help manual, then blossoms into a wide-ranging political manifesto."—Jonah Engel Bromwich, The New York Times Book Review One of President Barack Obama's "Favorite Books of 2019" Porchlight's Personal Development & Human Behavior Book of the Year In a world where addictive technology is designed to buy and sell our attention, and our value is determined by our 24/7 data productivity, it can seem impossible to escape. But in this inspiring field guide to dropping out of the attention economy, artist and critic Jenny Odell shows us how we can still win back our lives. Odell sees our attention as the most precious—and overdrawn—resource we have. And we must actively and continuously choose how we use it. We might not spend it on things that capitalism has deemed important ... but once we can start paying a new kind of attention, she writes, we can undertake bolder forms of political action, reimagine humankind's role in the environment, and arrive at more meaningful understandings of happiness and progress. Far from the simple anti-technology screed, or the back-to-nature meditation we read so often, *How to do Nothing* is an action plan for thinking outside of capitalist narratives of efficiency and techno-determinism. Provocative, timely, and utterly persuasive, this book will change how you see your place in our world. In Nancy Bauer's view, most feminist philosophers are content to work within theoretical frameworks that are false to human beings' everyday experiences. Here she models a new way to write about pornography, women's self-objectification, hook-up culture, and other contemporary phenomena, and in doing so she raises basic questions about philosophy. This practical guide makes filing for divorce in the Lone Star State as easy and painless as possible. Fully updated to reflect current changes to state law, the book explains how the laws work, how to divide property, and how to settle child support and custody issues. The necessary forms, as well as detailed instructions on how to complete and file them, are provided both in a tear-out set and on a CDROM, which also features bonus material including the addresses and weblinks of all Texas county courthouses. Whoever said that parenting is easy obviously

never had teenagers. How do you take these hormonal teens and actually get them to listen to you? In *How to Raise a Teenager Without Using Duct Tape*, you will learn answers to the 7 most asked questions about raising teens. Finally, a manual for those of us who have never been trained in being parents of teens! In the United States, the ability to take informed action is becoming increasingly necessary, and difficult. This book delves into the importance of being informed and explains how not all sources of information are equal. Readers are introduced to the scientific method as a way of testing information for credibility. Students will also learn how to turn credible information into action by forming groups, protesting, contacting elected representatives, and possibly even running for office themselves someday. Packed with tested strategies and practical tips, this book is the essential, life-changing guide for everyone who owns a smartphone. Is your phone the first thing you reach for in the morning and the last thing you touch before bed? Do you frequently pick it up “just to check,” only to look up forty-five minutes later wondering where the time has gone? Do you say you want to spend less time on your phone—but have no idea how to do so without giving it up completely? If so, this book is your solution. Award-winning journalist Catherine Price presents a practical, hands-on plan to break up—and then make up—with your phone. The goal? A long-term relationship that actually feels good. You’ll discover how phones and apps are designed to be addictive, and learn how the time we spend on them damages our abilities to focus, think deeply, and form new memories. You’ll then make customized changes to your settings, apps, environment, and mindset that will ultimately enable you to take back control of your life. Getting promoted in the fire service is not an easy process. Many people have that desire to promote, but for whatever reason cannot put the pieces together to make it a reality. Over the 20 plus years I have been in the fire service, I have had the opportunity to be on both sides of the promotional process - as a candidate, and as a rater and proctor. This book will assist fire department personnel specifically prepare for their next promotional exam. Promotional candidates will be exposed to and offered key

points for the most common tasks and events within a fire department promotional process including, but not limited to: promotional preparation, completing the application, resume preparation, the written exam, the oral interview, the personnel problem, the oral presentation, and the emergency simulation. A teacher shares her experience on how to take running records and use what they tell you to assess and improve every child's reading. *How to Do Things with Books in Victorian Britain* asks how our culture came to frown on using books for any purpose other than reading. When did the coffee-table book become an object of scorn? Why did law courts forbid witnesses to kiss the Bible? What made Victorian cartoonists mock commuters who hid behind the newspaper, ladies who matched their books' binding to their dress, and servants who reduced newspapers to fish 'n' chips wrap? Shedding new light on novels by Thackeray, Dickens, the Brontës, Trollope, and Collins, as well as the urban sociology of Henry Mayhew, Leah Price also uncovers the lives and afterlives of anonymous religious tracts and household manuals. From knickknacks to wastepaper, books mattered to the Victorians in ways that cannot be explained by their printed content alone. And whether displayed, defaced, exchanged, or discarded, printed matter participated, and still participates, in a range of transactions that stretches far beyond reading. Supplementing close readings with a sensitive reconstruction of how Victorians thought and felt about books, Price offers a new model for integrating literary theory with cultural history. *How to Do Things with Books in Victorian Britain* reshapes our understanding of the interplay between words and objects in the nineteenth century and beyond. “The bible of eldercare”—ABC World News. “An indispensable book”—AARP. “A compassionate guide of encyclopedic proportion”—The Washington Post. And, winner of a Books for a Better Life Award. *How to Care for Aging Parents* is the best and bestselling book of its kind, and its author, Virginia Morris, is the go-to person on eldercare for the media, appearing on Oprah, TODAY, and Good Morning America, among many other outlets. *How to Care for Aging Parents* is an authoritative, clear, and comforting source of advice and support for

the ever-growing number of Americans—now 42 million—who care for an elderly parent, relative, or friend. And now, in its third edition, it is completely overhauled and updated, chapter-by-chapter and page-by-page, with the most recent medical findings and recommendations. It includes a whole new chapter on fraud; details on the latest “aging in place” technologies; more helpful online resources; and everything you need to know about current laws and regulations. Also new are fill-in worksheets for gathering specifics on medications; caregivers’ names, schedules, and contact info; doctors’ phone numbers and addresses; and other essential information in one handy place at the back of the book. From having that first difficult conversation to arranging a funeral and dealing with grief—and all of the other important issues in between—How to Care for Aging Parents is the essential guide.
